

## ●● My SPECTRALIS®. My Way.

No matter how you configure your SPECTRALIS platform, you can be sure it contains the core DNA for high-contrast, high-resolution images that cut through the noise and give you the confidence to pinpoint pathology, identify real change and make more informed clinical decisions.

- **Upgradeable Platform:** Build your dream imaging platform. Add the modules you need as and when you need them.
- **Confocal Fundus Image:** Image in any lighting condition with no pupil dilation, even through cataracts and contact lenses.
- **Retinal Recognition:** Unique TruTrack Active Eye Tracking automatically repositions the OCT scan in the same location at follow-up so that you can see changes as small as 1-2 microns.

## ●● Choose the SPECTRALIS that is right for you, your practice and your patients.

### SPECTRALIS® SPIRIT

Containing the core DNA that makes the SPECTRALIS platform the retinal specialists OCT of choice, the SPECTRALIS SPIRIT user interface is designed to make OCT easy and fast for any retail environment.

- **Simple:** An incredibly accurate RNFL disc scan, designed to catch the earliest signs of glaucoma and a comprehensive macula volume scan give you all the information you need to be able to interpret the simple, intuitive reports in no time.
- **Smart:** View patient images on a monitor or iPad anywhere in practice using a wireless web browser and never follow up on the wrong patient with retinal recognition technology.
- **Small:** Surprisingly small and flexible with a choice of tables to fit any size practice.
- **Speed:** Semi-automated, 3-click image acquisition makes learning to capture stunning images in seconds easy for anyone.
- **Sensible:** The smaller upfront investment and upgradeable design means you can get started right away and grow as and when you are ready.

### SPECTRALIS®

When you own the full functionality of the SPECTRALIS, you unleash the true potential of multimodal diagnostic imaging.

- **Versatile:** Enjoy complete scanning flexibility to help you image the most challenging patients, pinpoint pathology and acquire more detailed information to refine your clinical decisions.
- **Comprehensive:** Dynamic visualisation, detailed measurement and analysis, as well as a full reporting package allow you to position your practice ahead of the competition with the clinical excellence and credibility that the SPECTRALIS provides.
- **Prestigious:** The retinal specialists OCT of choice and the same SPECTRALIS model used by NASA to monitor the eye health of astronauts aboard the International Space Station.
- **Sophisticated:** Adding unique imaging modalities, such as MultiColor, Autofluorescence and OCT Angiography advance your diagnostic skills, refine your clinical decision making further and improve patient care, elevating you to expert status.
- **Distinctive:** The stunning images SPECTRALIS captures are instantly recognisable, the adjustable 10 layer segmentation, the 3D animation, LIVE infrared movies and flicker feature WOW patients everytime.

—● A complete education and practice marketing package.

Every SPECTRALIS comes with a comprehensive training and practice marketing package, which helps you to integrate your new OCT into practice quickly. Operator, clinical and front of house training is all included, so the whole team feels comfortable and confident about OCT. Enjoy access to hundreds of learning resources online via our Business Lounge or join us at our Academy training centre for care in the community and a host of other hands-on and interpretation courses.

—● We are so confident you will love your OCT. Try before you buy.

Heidelberg Engineering is the only company to offer an 18 month rental scheme, with no obligations so you can try before you buy. You still get the same fantastic package that you would if you were purchasing, plus the system is covered on warranty for the full 18 months.

At the end of the term, you can either purchase, upgrade or return your SPECTRALIS, no strings attached. It is that easy. We are confident that you are going to love your SPECTRALIS OCT, no matter which model you choose, and that it will find a permanent place in your practice.

—● Become a SPECTRALIS owner today.

You can own a SPECTRALIS and take advantage of a range of flexible financing solutions to suit your individual needs. We partner with leading finance companies including Performance Finance, Snowbird, and Braemar and with lens companies offering a rebate scheme on lens purchases.

- **Long term:** Low monthly payments and low interest over 7 years with the flexibility of a Masterlease to build your SPECTRALIS, upgrading it over the term.
- **Low rate:** Low interest across the whole 5 year term to minimise your capital investment.
- **Lens rebate:** Choose any of our partners to subsidise or completely cover your monthly SPECTRALIS payments.
