

HEYEX 2 Solo – Your All-in-One Solution for Single-Device Image Management

Compact, Scalable, Streamlined

HEYEX 2 Solo delivers advanced imaging and data management capabilities in a compact, single-computer setup, ideal for clinicians, researchers, and smaller practices seeking streamlined workflows without complex IT infrastructure.

- **Diagnostic Tools:** Image viewing and analysis via the Multimodal Viewer.
- **Scalable Design:** Integrates additional devices or expands to a full HEYEX 2 installation for future growth.
- **Enhanced Security:** Protects patient data with robust security features, ensuring compliance with regulatory standards.

Future-Ready Tools

HEYEX 2 Solo facilitates effortless data sharing and supports AI integration, offering advanced diagnostics and a future-ready solution for clinics and research institutions.

- **Cloud Exchange:** Fast, secure sharing of patient images and data via encrypted peer-to-peer transfers.
- **Heidelberg AppWay:** Secure access to third-party AI solutions, enhancing diagnostic insights.

Use Case

Dr. Johnson, a researcher, leverages HEYEX 2 Solo to efficiently manage and analyze retinal images for her studies. The Multimodal Viewer's analysis tools and AI-powered insights from Heidelberg AppWay enhance her research precision and efficiency.

HEYEX 2 Solo Virtual Clinic – Expanding Your Practice into the Digital World

HEYEX 2 Solo Virtual Clinic combines all the powerful features of HEYEX 2 Solo with the added capabilities of the SPECTRALIS Viewer, equipping clinicians with advanced diagnostic tools for virtual consultations. With this solution, you can securely view and analyze diagnostic images remotely, delivering the same precision and reliability as in-person assessments.

- **Full Suite of Diagnostic Tools:** Facilitates accurate diagnostics and treatment decisions.
- **Ideal for Remote Workflows:** Perfect for telemedicine, virtual clinics, and remote diagnostic setups.
- **Cost-Effective Solution:** Enables timely patient care without major investment in infrastructure.

Use Case

Dr. Patel operates a virtual eye clinic using HEYEX 2 Solo Virtual Clinic. The SPECTRALIS Viewer allows him to provide accurate remote diagnoses, while the secure data sharing ensures that patient data is protected. The HEYEX 2 Solo Virtual Clinic has enabled him to offer high-quality care to patients in underserved areas without needing to expand his physical practice.

Experience Flexible Ophthalmic Solutions

Whether you need the flexibility and efficiency of a single-computer setup with HEYEX 2 Solo, or you're looking to expand your practice into virtual care with HEYEX 2 Solo Virtual Clinic, Heidelberg Engineering offers tailored solutions to meet your needs.
